Crystal Lake Enhancement Plans

Crystal Lake Park remains a priority for the district and community. Staff are working on significant improvements at the park and within the 9-acre lake. Phase One of the rehabilitation project, sediment removal from the basin, was completed in 2017. Upcoming Phase Two work will include restoration of a portion of the shoreline with a native plant buffer that will reduce erosion, and will provide improvements to water quality through storm water infrastructure. Additionally, stone outcroppings, a kayak launch, new playground and other recreational amenities will be included. Many of these recreational amenities are funded with the help of the OSLAD grant the park district received in early 2019. This work is currently scheduled to begin sometime in the Winter or Spring of 2020.
