## Crystal Lake Enhancement Plans

Crystal Lake Park remains a priority for the district and community. Staff are working on significant improvements at the park and within the 9-acre lake. Phase One of the rehabilitation project, sediment removal from the basin, was completed in 2017. Upcoming Phase Two work will include restoration of a portion of the shoreline with a native plant buffer that will reduce erosion, and will provide improvements to water quality through storm water infrastructure. Additionally, stone outcroppings, a kayak launch, new playground and other recreational amenities will be included. This work is currently scheduled to begin sometime in the Fall of 2019

A 10-foot wide multi-use path, funded by the Illinois Transportation Enhancement Program Grant, with matching funds from Carle Hospital, will begin construction in the Spring of 2019 with completion scheduled during Summer 2019. This path will span the southern border of Crystal Lake Park, along Park Street, from Broadway to Church St.
