

Urbana Park District

Dear Parent,

Your Child will have an opportunity to explore a restored prairie on his/her field trip to Meadowbrook Park, located at 2808 S. Race Street in Urbana. The field trip will be led by a naturalist from the Anita Purves Nature Center and is scheduled for:

Date:

Time:

Program:

Please make sure your child is properly dressed in suitable outdoor clothes. We will be walking through tall grasses so children should wear long pants, lightweight, long sleeved shirts and sturdy footwear (**absolutely no sandals or flip-flops!**). In cold weather, layers of clothing are better than a heavy jacket because they can be added or removed according to the temperature. In the event of rain, water repellent footwear and raincoats are best.

You are encouraged to share the benefits of this field trip and program by doing the following:

1. Inquire about your child's experiences during the field trip.
2. Take a nature field trip in your own neighborhood or yard.
3. Visit Meadowbrook Prairie and have your child show you around.

If you have any questions regarding our seasonal nature programs, please contact the Nature Center staff at 384-4062.

Thank you for your support.

Sincerely,

Chelsea Prahl
Environmental Education Coordinator
