USE OF PARKS, RULES, AND REGULATIONS

6.01 Contract for Police Services

The District will contract for police services with other units of government whose personnel meet police training requirements. Persons contracted by the District to perform police duties for the District, including city of Urbana police officers, will be conservators of the peace within and upon the Parks, Boulevards, driveways, and property controlled by the District and will have the power to issue Notices to Appear and make arrests for violation of any kind of penal ordinance of the District and for any breach of the peace in the same manner as the police of cities organized and existing under the general laws of the state of Illinois.

6.02 Hours of Use

Except as otherwise provided in these rules and regulations, District Parks, including all boulevards and driveways therein, and other property controlled by the District will be closed from sunset every evening until sunrise the following morning. All persons, except authorized District employees and representatives, will leave the Parks promptly at sunset and will not return before sunrise the following morning. No person shall be allowed on Park Property between sunset and sunrise, unless otherwise authorized by the Director or designee or when attending an authorized meeting or activity being held in a District Park or Facility. Facilities where lighting is available may remain open after sunset in accordance with hours posted at such facilities. Persons found in violation of this section are subject to the penalties as hereinafter provided.

6.03 Extended Use

Applications for extended use will normally be submitted to the Director not less than five (5) business days prior to the date upon which the applicant plans to make extended use of the Parks in the manner provided for in Section 6.05 of this chapter.

Persons found in violation of this section are subject to the penalties as hereinafter provided.

6.04 Public Assemblage and Meetings

No person, group of persons, association or corporation will call or hold any public meeting or assemblage or any private meeting or assemblage involving more than twenty-five (25) people or give or conduct any concert, performance, public exhibition, or entertainment of any kind in any of the Parks or public places of the District unless permission for such activity will have been obtained from the Director. Application for permission should normally be submitted to the Director not less than ten (10) business days prior to the date of the event. Failure to submit an application for permission (ten) 10 days before the event can be grounds for refusal of permission.

A permit to hold such meeting, assemblage, concert, performance, exhibition, or entertainment may be granted by the Director if he or she is satisfied that the following conditions have been met:

- a. The person, group, association, or corporation planning to hold the event will, to the extent the Director determines necessary, assume responsibility for the acts of all persons participating in the event and will assume responsibility for any injury sustained by any person participating in the event, except to the extent the District caused the damage;

It will also be a condition to the granting of any permit that the applicant will pay a reasonable fee and that the applicant will, should the Director find it necessary, furnish an indemnifying bond with acceptable sureties in an amount sufficient to indemnify the District against any loss, damage, expense, or litigation it may incur or sustain by reason of the holding of the activity covered by the permit. Any application not in compliance with the conditions set forth above will be denied. Persons found in violation of this section are subject to the penalties as hereinafter provided.

6.06 Revocation of Permit

The Board or the Director or their designee may revoke any permit previously granted at any time if it is determined that the application for permit contained any misrepresentation or false statement, that any condition set forth in the section or sections governing the permit requested is not being complied with, that the safety of the participants in the activities of the applicant or other visitors to the Parks is endangered by the continuation of such activity, that there is significant risk of damage to public property or that the event will interfere with the public's use of the Parks. Persons found in violation of this section are subject to the penalties as hereinafter provided.

 - v. Will not be driven into wet, snow covered, frozen, or ecologically sensitive areas which are posted as such;
 - vi. Will be driven on the right side of the circulation route;
 - vii. Is prohibited from carrying another person on the frame or any object on the frame that may make the OPDMD less stable;
 - viii. Must not be operated in a dangerous or reckless manner that jeopardizes operator safety, District employees, or District participants.
- f. The District accepts no responsibility for storage of the device.
 - g. The District accepts no liability for damage to the device or injury to the operator, whether caused by the operator, another visitor to a District Facility or site, or any other circumstance.
 - h. The District accepts no liability for damage caused by the operator of the device or injury to others caused by the operator of the device.

- i. The District reserves the right to suspend the use of Facilities or sites by the operator if doing so is in the best interests of the District and its participants.
- j. The District reserves the right to change, modify, or amend this policy at any time, as it would any other policy.
- k. A participant, authorized user, or visitor who does not agree with this policy or the use of OPDMDs in the District may file an accessibility complaint. Contact the District's administration office at 217-367-1536 to receive a copy of the District's ADA complaint process or go to <http://www.urbanaparks.org/about-us/ada-policies-and-procedures>.

6.35 Service Animals

The District, through these policies, intends to address compliance with the Americans with Disabilities Act (the "ADA") and Section 504 of the Rehabilitation Act (Section 504). The following procedures implement this policy with regard to the use of service animals by persons with disabilities who are registered participants in District programs or authorized users of the District's Parks and Facilities and by visitors with disabilities in the District's Parks and Facilities.

The purpose of these procedures is to ensure that participants and authorized users and visitors with disabilities who have service animals can participate in and benefit from the District services, programs, and activities and to ensure that the District does not discriminate on the basis of disability as identified in Titles I and II of the ADA. Questions and concerns about these policies can be directed to the District's ADA Coordinator or the Director.

Visitors may be accompanied by a service animal when observing programs and activities or enjoying the District's Parks and Facilities

without making a request for a reasonable modification. Persons with disabilities are invited to contact the District's ADA Coordinator or the Director for any questions about this policy.

a. Definitions

- i. Service Animal: Any dog that has been individually trained to perform tasks for the benefit of a person with a disability. Exceptions may be made by the District on a case-by-case basis in accordance with the law. Tasks may include, but are not limited to, guiding individuals with impaired vision, alerting individuals with impaired hearing to sounds, alerting an individual to the presence of allergens, pulling a wheelchair, or retrieving dropped items. Dogs that are not trained to perform tasks that mitigate the effects of a disability, including dogs that are used purely for emotional support, are not considered service animals.
 - ii. Partner/Handler: A person with a disability who uses a service animal as a reasonable modification or a trainer.
 - iii. Team: A partner/handler and a service animal. The two (2) work as a cohesive team in accomplishing the tasks of daily living.
 - iv. Trainee: A dog being trained to become a service animal has the same rights as a fully-trained service animal when accompanied by a partner/handler and identified as such.
- b. As a general rule, the District will modify policies, practices, and procedures to permit the use of a service animal by an individual with a disability.
- c. The District may impose some restrictions on service animals for safety or site sensitivity reasons. Restrictions are considered individually to determine if the animal poses a danger to others at District sites or could be in danger itself, and to determine if other reasonable modifications

can be provided to assure that the individual enjoys access to the Park, Facility, or program. Questions about restrictions on service animals should be directed to the District's ADA Coordinator or Director.

- d. Responsibilities of an individual with a service animal:
 - i. Responding truthfully to the limited and appropriate inquiries that may be made by employees regarding the service animal.
 - ii. Ensuring that the animal meets any local licensing requirements, including maintenance of required immunizations for that type of animal.
 - iii. Requiring the service animal to wear a dog license tag at all times.
 - iv. Ensuring that the animal is in a harness or on a leash or tether at all times. Exceptions may be considered individually.
 - v. Ensuring that the animal is under control and behaves properly at all times. The supervision of the animal is solely the responsibility of its partner/handler. If the animal's behavior becomes a hygiene problem or the animal acts in a threatening manner, the District may require that the partner/handler remove the service animal from the site.
 - vi. Ensuring that all local ordinances or other laws regarding cleaning up after the animal defecates are strictly adhered to. Individuals with disabilities who physically cannot clean up after their own animals are not required to pick up and dispose of feces; however, these individuals should use marked service animal toileting areas where provided.
 - vii. Keeping the service animal in good health. If the service animal becomes ill, the partner/handler must remove it from the area. If such action does not occur, the District staff may require it to leave.

- e. Responsibilities of members of the District staff, participants and authorized users, and visitors in the District's Parks and recreation sites are responsible for the following:
 - i. Allowing service animals to accompany the partner/handler at all times and anywhere at a site except where animals are specifically prohibited.
 - ii. Refraining from distracting a service animal in any way, including petting, feeding, or interacting with the animal without the partner/handler's invitation to do so.
- f. The District may take action against any individual who fails to abide by these guidelines.
- g. The District may exclude a service animal from all parts of its property if a partner/handler fails to comply with these restrictions and, in failing to do so, fundamentally alters the nature of programs, services or activities offered by the District. The District may exclude a service animal from all parts of its property if a partner/handler fails to control the behavior of a service animal and it poses a threat to the health or safety of others.
- h. A participant or authorized user, employee, or visitor may report a concern regarding a service animal to District staff.
- i. Temporary Exclusion of a Service Animal Used by a Participant or Visitor:
 - i. In response to an immediate concern, the District staff may determine that a service animal must be temporarily removed from Parks, sites, or Facilities. The employee authorized to make such decisions at that site, Park, or Facility will notify the participant or visitor of this decision and that the incident will be reported immediately to the District's ADA Coordinator.
 - ii. The ADA Coordinator (or designee) will investigate all reported concerns and incidents where service

animals have been temporarily removed from sites, Parks, and Facilities. The ADA Coordinator (or designee) will consult with appropriate District personnel and determine whether or not the animal should be excluded from sites, Parks, and Facilities for an extended period of time, or permanently. The ADA Coordinator (or designee) will notify the participant, authorized user, or visitor of his or her decision.

- iii. If it is appropriate for the service animal to be excluded from sites, Parks, or Facilities permanently, the ADA Coordinator (or designee) will work with other District staff to ensure the participant, authorized user, or visitor receives appropriate reasonable modifications in place of the use of a service animal.
- iv. A participant, authorized user, or visitor who does not agree with the decision regarding removal from the premises may file an accessibility complaint. Contact the District's administration office at 217-367-1536 to receive a copy of the District's ADA complaint process or go to <http://www.urbanaparks.org/about-us/ada-policies-and-procedures>.
- v. It may be easy to discern whether or not an animal is a service animal by observing the animal's harness, cape, or backpack, or the partner/handler's disability. However, in other cases, an animal may only have a leash and, in still other situations, the partner/handler's disability is not apparent. Therefore, it may be appropriate for designated District staff such as Facility managers, coordinators, area supervisors, or administrative staff to ask (1) whether the animal is required because of a disability and (2) what work or task the animal has been trained to perform.

- j. Emergency Responders (ERs) are trained to recognize service animals and to be aware that animals may try to communicate the need for help. Also, an animal may become disoriented from the smell of smoke in a fire or Facility emergency or from sirens, wind noise, or shaking and moving ground. A partner/handler, service animal, and team may be confused in any stressful situation. ERs will remember that an animal may be trying to be protective and, in its confusion, should not be considered harmful. ERs should make every effort to keep a service animal with its partner/handler; however, the ER's first effort should be toward the partner/handler, which may result in the animal being left behind in some emergency evacuation situations.

Persons found in violation of this section are subject to the penalties as hereinafter provided.

6.44 Security Cameras

The District may use security cameras to enhance the safety and security of District users, staff, and property while protecting individuals' rights to privacy. Video monitoring for security purposes will be conducted in an ethical and legal manner. Dedicated security cameras will be utilized to provide real-time surveillance. The primary use of security cameras is to discourage inappropriate and illegal behavior and to enhance the opportunity to apprehend offenders. Information obtained through video monitoring will be used exclusively for security and law enforcement purposes.

The District will post signs at public entrances/exits and adjacent to Facilities being monitored alerting Park users to the use of security cameras for monitoring and recording on District property.

Video data is recorded and stored digitally. The recorded data are considered confidential and secure. Recorders and recorded data are housed in a limited-access, controlled environment.

The Director will designate individuals authorized to access the recorders and recorded archival data. Authorized individuals may access the recorded data for review in order to ascertain security concerns related to a specific incident.

Occasional spot checks of the recorded data will be made by an authorized individual to assure proper operation of the system and to review access procedures. The frequency of viewing and the amount of viewing at one time will be limited to the minimum needed to give assurance that the system is working.

Recordings will be kept for approximately 30 days unless required as a part of an ongoing investigation. The storage media will be kept in a secure area.

Authorized individuals may use a still shot or selected portions of recorded data to request law enforcement review for assessing the security risk of a specific individual or investigating a crime on District property. For investigations initiated by law enforcement agencies, recorded data will be made available to law enforcement.
